SAMHSA'S Mental Health Information Center [www.mentalhealth.samhsa.gov/cmhs/](http://www.mentalhealth.samhsa.gov/cmhs/)

### **Family Intervention Programs:**

Family Intervention programs utilize SAMHSA approved evidence based models (A-CRA/ACC, ARISE) to engage adolescents, young adults, and families. Presently there are five programs, supported by MDPH/BSAS, in the Commonwealth, which provide support services focused both on engaging the adolescent or adult with a substance use disorder into treatment and/or recovery services, as well as providing ongoing support, skill building, and resource development for the individual's family. Call the family intervention program directly to make a referral or to find out more information.
